BISHOP'S ORCHARDS

FARM MARKET

Growing & Providing Farm Fresh Products Since 1871

6 Generations

3 Farm Markets

11 Farm Market Building Upgrades

www.bishopsorchards.com

The addition & renovations include new bakery space for growing production and a new prepared foods line, additional freezer storage and shelf space for new and expanded product lines, new refrigeration cases, additional office space, and extra shopping space for our customers to shop with ease. Over the past 10 years Bishop's has increased produce and merchandise selections to be able to better serve our customers and realizes that space has become limited. With the ever-concerning health and diet needs and trends, and the increased requests for certain products by our customers, we want to be able to continue to provide variety for the community.
